1. Input single coordinate to check in the top box. The result will appear in the bottom box. Transfer positions checks will have a yellow background, invalid positions will have a red background and valid positions will have a green background. The Message box will also be used when importing a blockade checklist excel sheet.

<input style="width: 90%;" type="text" value="NRA6204X57600Y04Z2"/>	<input style="width: 90%;" type="text" value="TGA6204X40320Y05Z1"/>	<input style="width: 90%;" type="text" value="TGA6204X89280Y05Z1"/>
<p>Message:</p> <div style="background-color: green; color: white; text-align: center; padding: 2px;">Success!</div>	<p>Message:</p> <div style="background-color: yellow; text-align: center; padding: 2px;">Transfer position!</div>	<p>Message:</p> <div style="background-color: red; color: white; text-align: center; padding: 2px;">Not a rack location!</div>
<p style="background-color: yellow; text-align: center;">Check Coordinate</p>	<p style="background-color: yellow; text-align: center;">Check Coordinate</p>	<p style="background-color: yellow; text-align: center;">Check Coordinate</p>

a.

2. Click the Browse button to import a file into the tool. The Box below Filename: will automatically append "\_completed" to any checklist imported. You can change the filename in the box, when you click the "Save Blockade Checklist" button it will use that name.
3. The outermost boxes are shelf level indicators, the boxes labeled "X1x" & "X2x" are the rack positions. These will appear yellow to indicate the shelf height and rack locations.
4. A breakdown of the coordinate values.
5. Visual Indications of which Navette you should be in.
6. You can drag & drop a checklist to import a file.

b.

- c. After doing so you can then finish the blockade checklist in the browser window.

- i. Clicking any row will run the coordinate tool for the location, you can then follow the indicators to the correct position.
- ii. Double click any cell to edit that cell, then press enter to input the value.
- iii. When complete click the save button to export the workbook to the downloads directory for the browser you are using. The file will be accessible wherever you save files you download from the internet.
